¹This appliance belongs to category 10 according to the European regulation N°1060/2010. The temperature setting is from 14° to 18°C. However the appliance's technical performances allow to reach a wider temperature range from 8° to 18°C for both compartments.

Eco-responsibility

Our products are manufactured in compliance with European environmental rules.

Energy consumption is calculated based on the result obtained for 24h in standard test conditions. The actual energy consumption depends on the conditions of use and location of the device.

This equipment is designed to be used in an ambient temperature between 25°C.

Alcohol abuse is dangerous for health, please consume in moderation.

*Capacity given as an indication with 75cl Bordeaux traditional type bottles and measured with 4 shelves. Adding shelves reduce considerably the total capacity.

**Capacity given as an indication with 33cl cans and measured without shelves.
