7.5W

iPhone-optimised magnetic wireless charging base designed for use with the MagSafe system

With this fast MagSafe Wireless charger there is no need to plug in when it's time to power up. Instead, simply place the charger on the back of your magSafe device or put your device on the charging pad. With its compact and travel-friendly shape, the charger easily fits into bags and takes up minimal space on desks and other surfaces, whilst the elegant design blends in both at home and in the office.
